This will confirm that this firm regularly engages the services of C.P.A. Investigations. On our behalf, they find and interview witnesses, track and serve defendants, interview our clients, investigate accident scenes.

We have always found that they conduct themselves with a very high degree of professionalism, not only with the general public but also with our office staff. They are prompt to respond to our requests, provide us with complete and accurate results and conduct themselves with discretion and confidentiality at all times.
