RE: Letter of Recommendation  
for **C.P.A Investigations LTD.** (Corporate, Private, Aquatic)

I have been asked by Darryll W. Harasemow and John Pisarski of CPA Investigations LTD to offer a letter of recommendation for their Aquatic Dive Team of Private Investigators.

Generally our R.C.M.P. force prohibits such letters of recommendation so this will be solely my personal remarks and comments that do not reflect that of the R.C.M.P.

I have personally and professionally supported CPA Investigations / CPA Recovery on many occasions and had numerous opportunity to discuss, monitor dive searches and cadaver recoveries made by this very prepared dive team. Their abilities as a dive search team, without question is the most superior that I have encountered. The team is equipped with the latest high tech dive gear with full underwater communications. They are extremely well trained in their respective disciplines of investigations. Whether in water or land based CPA Investigations mobilize the use of cadaver dogs with the highest success rate of recovery that I have been witness to.

This Underwater Recovery team in my opinion, is by the far the best trained dive team that I ever have been associated with. All of my association with this dive team has shown me that they are safe, mature, stable and very community minded with great motivation for success.

I have travelled throughout the USA and Canada and this dive team sets the industry standard. I will continue to support them personally and professionally as they are a great asset to our community.

Sincerely,

A handwritten signature in cursive script, appearing to read "R. G. Teather".

Cpl. Robert G. Teather, C.V.
